

Compliance-First SaaS for NY, NJ & CT Dispensaries

99.7%

Metrc Sync Accuracy

THE PROBLEM

Cannabis Operators Are Drowning in Complexity

- ✓ **Compliance Chaos**
Metrc errors cost \$5K-\$50K per violation. Manual entry = 23% error rates.
- ✓ **Fragmented Tools**
Dispensaries juggle 4-7 separate systems for POS, inventory, and compliance.
- ✓ **Revenue Leakage**
Inventory discrepancies average 8-12% of stock with no real-time visibility.
- ✓ **Customer Drop-Off**
68% of cannabis customers abandon orders due to poor storefront UX.

THE PLATFORM

Four Products. One Stack.

Core

POS & Compliance

Point-of-sale, real-time inventory, automated Metrc sync with BullMQ retry queues.

Connect

Supply Chain

B2B ordering, distributor management, multi-location inventory sync.

Storefront

E-Commerce

WCAG 2.1 AA customer storefront with age gate, cart, checkout, delivery.

Insights

Analytics

Real-time dashboards, margin optimization, competitive intelligence.

METRC COMPLIANCE ENGINE
